

# SASKATOON DOUBLE DIP CHART

| MEMBER DEPTH | MEMBER LENGTH TEETERED | MEMBER LENGTH FLIPPED |
|--------------|------------------------|-----------------------|
| <b>1'-2"</b> | <b>9'-0"</b>           | <b>21'-6"</b>         |
| 1'-0"        | Must be Flipped        | 21'-0"                |
| 0'-8"        | Must be Flipped        | 22'-7"                |
| 0'-4"        | Must be Flipped        | 23'-11"               |
| 3'-3"        | Must be Flipped        | 25'-7"                |
| 3'-0"        | Must be Flipped        | 27'-2"                |
| 2'-7"        | Must be Flipped        | 28'-11"               |
| 2'-3"        | Must be Flipped        | 30'-2"                |
| 2'-0"        | 23'-0"                 | 31'-9"                |
| 1'-7"        | 25'-11"                | 33'-5"                |
| 1'-3"        | 29'-2"                 | 35'-1"                |
| 1'-0"        | 32'-1"                 | 36'-9"                |
| 0'-8"        | 35'-5"                 | 38'-4"                |
| 0'-4"        | 38'-4"                 | 40'-0"                |

\* Single Pickle, Flipped in Flux and Kettle, contact us about warpage.

## KETTLE SIZE

21'-6" L x 3'-7" W x 4'-6" D

## NOTES

- Member depths include all protrusions such as base plates, connection plates, etc. Please call us with questions on more complex sections.
- Material greater than 1/2" thick must be flipped (not teetered).
- This chart takes into account a 8" overlap.
- For total member weights greater than 13,200lbs, please call for engineer's approval.

## TANK SIZE LIMITATIONS

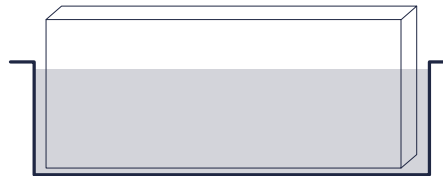

### SINGLE DIP MAX.

21'-6" L x 3'-7" W x 4'-6" D

### MAX. D/D DIMENSIONS FOR DEPTH

21'-6" L x 3'-7" W x 9'-0" D

### MAX. D/D DIMENSIONS FOR LENGTH

40'-0" L x 3'-7" W x 0'-6" D
